

Trucks on Harvard/Warner Street

An Accident Waiting to Happen

According to a recent traffic study, there are **over 500** oil tankers, tractor trailers and other heavy commercial trucks that travel Harvard and Warner Street **every day**.

Trucks are dangerous on our narrow and densely populated streets.

Trucks are damaging the street, our cars and our homes and risking our safety.

Are you sick of your road being used as a commercial expressway?

Tell your elected officials to petition MassHighway to ban heavy trucking on Warner and Harvard Street NOW!!
